FRANCIS A. FOX OF KEZAR FALLS
Who defected Wesley Chik in the recent murder trial.

Another Murder in Oxford County

Until the murder of David Varney at Porter last December there had not been a murder committed in Oxford county for several years. And now after a period of only about four months another man has been shot down.

Tuesday afternoon, Henry W. Farrington shot and killed Eugene Bryant in a lumber camp about three-fourths of a mile from East Summer village. Bryant's head was nearly blown off by Farrington, who says he fired in self defense.

Bryant is about 45 or 50 years old and came to Summer but a day or two ago to occupy a camp jointly with Farrington and his son. Until recently he was an inmate of the National Home for Disabled Soldiers and Sailors, and was also employed in the toy factory at South Paris. He was never married.

Farrington, who is about 60 years old, is also a veteran. He is married and has always commanded the respect of his acquaintances. He came from Harvard to work in the woods at East Summer about two weeks ago.

Believing that there was a good chance for his comrade to work on the wood and to live in the camp with himself and son, Farrington sent for Bryant, who came in a few days. Old times were talked over and there was a celebration over the meeting of the veterans.

The festivities continued until the terrible tragedy. The two men had been drinking and were alone in the camp when the quarrel began. After dinner they became involved in a dispute as to who was "boss" of the camp, which is owned by Farrington's son. Hot words passed rapidly and Farrington claims that Bryant threatened to shoot him with a revolver which he carried. Then Farrington says that in self defense, he charged the revolver, he leveled his gun on him and fired.

Farrington walked to the store of E. P. Russell at Summer village and telephoned to Buckfield and requested that Deputy Sheriff S. C. Withington be notified. Withington drove to the village and visited the camp, which is about 40 rods from the main highway. After viewing the body and looking up the camp he returned to the village and took Farrington into custody.

Tuesday night, County Attorney C. P. Barnes of Norway and High Sheriff B. G. McIntire of Waterford took charge of the case.

Scott Saunders of Mechanic Falls was at his old Norway home this week.

Next Monday evening the Norway village corporation meeting will be held in Norway Opera House. The reports are being printed.

A. A. Bruce of Albany was brought before Judge Davis last Monday by Chas. Boobier for cruelty to his horse. Bruce was fined \$5.00 and costs.

Fatally Burned.

Last Thursday evening, Fanny Elizabeth Stevens, a member of one of the oldest Cambridge families, was fatally burned at her home, 69 Thorndike street. She was going from the dining room to the kitchen with a lighted lamp in hand when she tripped and fell, breaking the lamp, and in an instant her clothes were a mass of flames. Her cries brought her brother and he tore the clothing from her body and extinguished the flames.

A physician was called and he gave what aid he could and ordered the immediate removal of Miss Stevens to the Massachusetts General Hospital. She died there a few hours later.

She was the daughter of the late George Stevens, an ex-Mayor of Cambridge. He was a native of Norway and went from here when a young man and engaged in the organ business, and continued in the manufacture of church organs until his death in 1894.

A brother Wendell H. Stevens was found dead in his room Tuesday afternoon. Wendell was suffering from tuberculosis. The Stevens family consisted of two brothers and a sister, all past middle life. All three were devoted mentally and the probate court appointed a guardian for them several years ago.

She also has 32 chickens which are four weeks old and 33 which are nearly two weeks old, making 65 in all. They are growing fine. She hatches her chickens with hens and raises them without the aid of either hens or brooders and is very successful as her chickens show their good care.

Postoffice Aspirations.

W. R. Robinson, postoffice inspector, headquarters at Portland, has been called on and interviewing the patrons of the Norway postoffice, for the past two days as regards the services and management of the postal affairs of the office.

Capt. Moses P. Stiles has held the office for the past eight years, and under recent rulings of the department he is hopes to be continued as postmaster for the next four years. To this many of the patrons of the office object, hence the investigation by the inspector.

What his conclusions are is not known but it is evident that the inspector is making a careful and thoughtful study of the situation and in due time will report to the department.

The community and some others wait with much interest for the decision.

After short business meeting, during which several new members were received into the Union, several songs were sung. Then followed a social that was much enjoyed by all.

Where and How Criminals are Made.

The above subject was treated by Rev. B. S. Rideout at the Congregational church last Sunday evening.

The chief causes were mentioned, heredity and environment. It seems to be quite the unanimous opinion that secular education alone is insufficient in the training and education of children.

Forbes Winslow, physician to the British hospital for mental disorders, speaking as a scientist, said "The arts and sciences alone have not civilized a nation for the arts and sciences are the products not the causes of national superiority. Moreover they concern the intellect rather than the moral. Unhappily it must be owned that the present state of self-control are not the constant attendants of learning or splendid gifts of genius. An education which merely instructs will encourage crime."

In the Contemporary Review for Dec. 1870 Huxley wrote this "I have always been strongly in favor of secular education without theology, but I must confess I have been less seriously perplexed to know by what practical measures the religious feeling, which is the essential basis of conduct was to be kept up in the present utterly chaotic state of opinion on these matters without the use of the Bible." As a scientist Huxley stands among the first half-dozen magisterial scientists in the world.

Goethe the great German poet and thinker once wrote the following: "The greater the intellectual progress of the ages the more fully possible will it also become to employ the Bible both as the foundation and the instrument of education, of that education by which, not pedants, but truly wise men are formed."

Other great educators and scientists are mentioned in the article as showing how important the moral and religious instruction is in the education of children. The criminal is started on his career in the "irreligious and immoral home. The criminal tendencies are nurtured by evil companions in the evening hours in the city of sin, by the reading of criminal literature (if it can be called literature) which is a very prolific source of crime. Numerous incidents and crimes by youthful criminals were referred to as traceable directly to religious and criminal literature. Educate, educate, train but educate, train the faculties, the moral and spiritual as well as the intellectual.

The Methodist Church.

The Maine Annual Conference of the Methodist Episcopal church will meet at Chestnut street, Methodist church, Portland, next Wednesday morning, April 11. Bishop David H. Morse, of Portland, Oregon, will preside. Many prominent speakers of Methodism, such as Bishop W. F. Mallaleu, Chancellor James R. Day, of Syracuse University, A. B. Leonard, of New York, Dr. M. C. Mason, an eminent colored divine, of Ohio, are expected. It promises to be one of the most interesting sessions for years.

Methodism in the Maine Conference has been on the forward march the past year. Revival has been the cry on most of the charges and "the faith of our fathers" has been exemplified and many have been won to Christ.

Norway M. E. church has had a revival all winter, and it still continues. Both pastor and people have stood firm for the doctrine of Jesus Christ, which has brought the divine favor of God upon them continually. There has been a large increase in membership. Such harmony exists between pastor and people that although the pastor has other fields of promise open to him, he expects to remain in Norway. The Epworth and Junior Leagues are full of hope and interest. The ladies' circle is doing excellent work. This church was never more promising in all its history than now.

General class meeting will be held next Friday evening, at the vestry of the M. E. church.

Chas. E. Brooks '06, is spending his Easter vacation with his parents, Rev. and Mrs. C. A. Brooks.

They stopped at the Beal's house, Friday night, and returned to Lewiston, on the 9:30 train, Saturday morning.

E. S. Russell of South Woodstock was in town on business last Monday. His health is not the best. He works some for L. W. Andrews & Sons. His father, Moses M. Russell, excepting an attack of grip the past winter, has enjoyed excellent health notwithstanding he was 80 years old last September. E. S. Russell at one time was a jeweler, clock and watch repairer in this town.

The case of State vs. Herbert W. McDowell which was on trial when we went to press last week was the last criminal case tried. Herbert W. McDowell, age 18 years, and lives in Mexico and Arthur Ayles who is 16 and also lives in Mexico were both indicted for the forgery of three checks and Ayles turned State evidence.

At the time of the forgeries Ayles was working in the livery stable of Leon Small at Biddeford. Small's check book was in the pocket of his coat which hung in the stable office. The forged checks were made out on blanks taken from this book. According to Ayles, McDowell made out the face of all three checks and the indorsements on one or two of them.

In his own defence McDowell testified that he had never seen two of the checks and that the third one which was for \$8.25 was given to him by Ayles.

County Attorney Barnes for the state, N. C. Foster for respondent. The jury took this case late Thursday afternoon and remained until about 7 o'clock and Friday morning returned a verdict of guilty of passing a forged check.

Following this case attorney Barnes went through the criminal docket and cleaned up matters which could be disposed of. There were more criminal cases this term than has been before for many years, nine full days of the term having been devoted to criminal business.

There were seven criminal trials, one was not pressed at the conclusion of the evidence, one resulted in acquittal and five in conviction. All the civil cases assigned for this term were tried.

Enough was disclosed to show anything but a happy state of affairs in the family, various unseemly acts being made by both sides. At the close of the hearing Judge Spear gave his decision that although it might be difficult to determine the whole truth in the matter, he did not feel that the evidence justified granting the divorce.

Letter to M. M. Fuller, Norway, Maine.

Dear Sir: Here's something every painter and builder ought to know.

Mr. J. H. Hall, Sheffield, Pa., painted two houses, 5 years ago, lead-and-oil; took 40 gallons. Last year he painted Devoe, bought 40 gallons; had 10 left.

He is one of thousands. The knowledge is getting about pretty generally, that Devoe goes further than anything else.

Have you found it out in your own experience?

How much further?

Suppose a job amounts to 10,000 square feet; how much less Devoe could you buy?

Is it as easy to paint? Does it cost any more or less to put-on by the gallon than anything else? How much?

If it costs no more to put-on Devoe by the gallon, it costs less by the foot, you know; for the gallon does more feet. How much less, do you find it, for wages?

Lasts, say, twice as long; that is the owner's gain; but perhaps you reckon it years; some do. The time, when that comes in, is when he gives out the next job.

Who gets it? Yours truly,

F. W. Devos & Co.

Story Related by Gen. Beal.

Wm. C. Leavitt has the following story he tells as was related by the late Gen. Beal in his store some years ago. He tells it as near as he can remember it. The general said:

"While I was Provost Marshal in South Carolina at the close of the War of the Rebellion, there was a complaint brought to me by a person known as Dr. Dargin about an old negro who had been stealing, as the doctor claimed, tools from him. The poor old darkey was arrested and brought before me. It was shown that the poor old fellow had gone in the daytime and taken a few carpenter's tools; he by the way, was a skillful workman and had been the slave, until freed by the war, of this same Dr. Dargin and had been hired out by the doctor to work where ever a carpenter was wanted his earnings going to his owner.

"The old fellow did not deny the charge, acknowledged taking the tools, and in defense made this plea, 'I made no attempt to imitate the negro dialect!'

"Massa, Ise an old nigger, I have nothing in the world to support myself and my old wife, I could do nothing without the tools I had always worked with, with them I could earn a living, I have been the slave of the doctor and family all my life. For the last fifty years I have earned their family from two to three dollars a day, I feel that these few poor tools are mine and I took them if you call it stealing, very well, I can go to jail and my poor wife will starve or live by begging, and she had rather die than do that, but I do not think I have done any wrong!"

The old General with moist eyes said: "I told him to take them, they are yours now anyway, and if anybody interferes with you in any way we will see what General Beal can do for you, it and you Mr. Dargin, get out of this before I am tempted to do you bodily injury."

Receives Official Endorsement.

Our candidacy for road commissioner as set forth in this paper receives the endorsement of the Commissioner of Highways—Paul D. Sargent—as per the following letter:

F. W. Sanborn, Esq., Norway, Maine.

DEAR SIR:—I am in receipt this morning of two marked copies of your bright newspaper and have been very much interested in reading your proposal to the voters of your town in the line of giving them permanent roads for no larger outlay than the present annual expense, provided they would elect you commissioner for ten years, and agree not to have at any one time a complete board of selectmen. I am very much interested in this matter, but it seems to me the town cannot afford to turn down your proposal. The idea is just in line with what I would like to see carried out in many of our towns, provided only the right man filled the office of road commissioner.

I see by looking over your platform or the outline of your policy provided you are given the position, that you propose to start right by having grades established and a drainage system built. To my mind, if nothing more than that was done in your ten years term, and that work was done thoroughly and completely, you would have vindicated your right to the office. But I believe you would do more. Your letter has the right ring and with your proposal to furnish a bond I can hardly see where this is anything but a making proposition for the town. I sincerely hope you will be successful in the enterprise.

Very very yours,

PAUL D. SARGENT, Commissioner.

Augusta, Mar. 29, 1906.

Unfortunately, perhaps for me, the office sought is not at the disposal of the State Commissioner of Highways but is for the voters of Norway to say who shall be road commissioner and to decide on the length of time he shall serve, provided of course, that the legislature gives that permission.

Every person in town wants better roads. Shall we have them?

We lay no blame or find any particular fault with the acts of our present or former road commissioners. They have acted conscientiously in the matter and have done as well as they could with the material at hand.

The time has now come for a change. Shall we have it?

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that it is not the plan of nature that women should suffer so severely.

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs these periods of their terrors.

Miss Irene Crosby, of 313 Charlton Street, East Savannah, Ga., writes:

"Lydia E. Pinkham's Vegetable Compound is a true friend to woman. It has been of great benefit to me, curing me of irregular and painful periods when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising women free of charge. Thousands have been cured by so doing.

HARRISON.
The Hauling of the Buildings.
All the village turned out to see the "hauling," when two buildings belonging to H. H. Caswell were drawn through the streets and out on the Waterford road about one-third of a mile. Several unsuccessful attempts had been made, but finally R. L. Davis took charge and with 14 pairs of oxen and four pairs of horses successfully accomplished it. The buildings are to be fitted up for a tenement.
Blanche Cole and Ethel Whitney, teachers in Massachusetts, are spending the Easter recess at their homes here.

Mrs. Dorcas Kneeland, one of our oldest ladies, has been very ill but is surprising her friends by her improvement from day to day. Mrs. F. H. Bicker and Mrs. Geo. Wilbur, who have both been very sick, are recovering. John Haskell is out but looking very pale and thin.
Rev. E. Z. Whitman, former pastor of the F. B. church, left here last week with his wife, his daughter, Mrs. May Davis, and his little granddaughter, Dorothy Davis, for Topeka, Kansas. They go for the benefit of Mrs. Davis' health. It is understood that Mr. Whitman expects to be employed by the Congregational Home Missionary society. Eben Kneeland and family have moved to Mr. Whitman's farm.
The Poverty Ball under the auspices of the Grange, which occurred Friday evening of last week, was a huge success in spite of the bad traveling, and nearly fifty couples danced until one o'clock the next morning and many more enjoyed the supper served by the ladies in the banquet hall below. Joseph Pitts and Mrs. Ethel Packard captured the prizes as being the best examples of poverty present but there were many more who attracted much attention. Mrs. Edwards was chairman of the committee of arrangements and Charles Doughty was floor manager and with his wife led the grand march. The music was furnished by Lamb's Orchestra of seven pieces, which has produced such a hit here this winter at all the more important dances.

WEST PARIS.

NORWAY AND VICINITY
Celebrates His 51st Birthday with a Last Friday, April 7th, was the anniversary of the birth of Cyrus Woodsum and it was fittingly observed by a party of friends and neighbors, who assembled at his residence, Main street. All who were invited at the appointed hour excepted editor of this paper, who was town.
As fine a supper as has been given any one to enjoy was prepared and by his daughter, Miss Olive Woodsum, it consisted of—it's no use to state—it was ample in every particular and full justice was done to the party.
A heavy oak rocker was given to Woodsum by the friends as a memento of the event of turning the milestone in the journey of life, chosen and appropriate presents were made by Hon. A. S. Ball and this token of respect was gracefully accepted by the hon. From looks and appearance you hardly believe Mr. Woodsum had the allotted three score and ten laid down in the good book. His and actions leave one to believe he is ten years younger than he is, however we must accept the record, he is correct.
Those present according to the week—
Cyrus Woodsum, C. L. Hathaway, Hon. A. S. Kimball, Geo. A. Cole, A. L. F. Pike, Frank Kimball, E. C. Winslow, C. F. Buckman, Dr. H. L. Bartlett, Geo. L. Curtis, Dr. B. Foster.
Nellie Andrews was in Auburn, Monday.
Ed. Dyer is stopping at home in present.
Mrs. Wm. Lewis is visiting relatives in Roxbury, Mass.
Harry S. Newcomb is working trade off barber, in Portland.
Mrs. George Bicknell and Mr. have returned home to Roxbury.
Mrs. Elmira J. Bicknell is at Mills, working for Mr. Walter L. Francis and Clyde Kimball of Portland, Mass., are stopping at W. S. Mrs. John L. Marshall, of West is visiting Mr. and Mrs. George Locke.
Mrs. Bertha Jordan of Mechanic visited her aunt, Mrs. Orin Kimball Saturday and attended the funeral of N. Buck.
A. L. Hobbs of Fresno, Cal., who years ago had charge of the express here, made a short visit, relatives and friends in this vicinity arrived Thursday and returned. He reports business to be good here.
Norway's Base Ball Dog.
Jack, a white brindle dog, the ty of Albert Klain, is probably the four footed ball player in the Every time the boys play, "Jack" hand and participates, acting as pitcher, but the moment the ball is pitched, he starts off in pursuit, galloping the ball in his mouth and bringing the base which the batter is trying to reach, when he lays it down and in his place behind the pitcher, ready for the next man up.
He seems to understand the thoroughly and enjoys the play, taking every move with almost human intelligence. If a ball is knocked bounds into a brush pile or if Jack forms a valuable adjunct team, as he is off after the ball and fails to bring it back in short order.
